Mar 2003

Travis Swallow

January 11, 2020

Greetings!

My name is Travis Swallow and I am a current 2L at the University of San Francisco School of Law. I am looking to enter the legal field as an intellectual property lawyer. I have enjoyed my education so far and look forward to continuing to learn and grow. In order to continue to challenge my own personal growth, I submit this application for consideration for the position of Law Student At-Large on the American Bar Association's Board of Governors.

As an At-Large Member of the ABA Board of Governors, my first goal would be to represent the voice of all law students with the Board of Governors. I feel that based on my educational and employment experiences I can relate and represent the diverse spread of law students across the nation. I earned my undergraduate degree at Brigham Young University which is one of the most conservative collegiate institutions in the country. I am now receiving my legal education at the University of San Francisco which has a heavy public interest focus and is located in one of the most liberal cities in the country. In my short career, I have worked for technology startup, a non-profit, an international IP firm, and an athletic conference. Long story short, I understand people and I understand that each person's journey and goals will be different. My main role as the student representative to the Board of Governors would be to relate to and represent all law students not just the ones who look, think, or believe like me.

My second goal is to find ways for the ABA to retain the interest of law students and recent graduates. Every law student had a reason for starting down the path to law school and we all know that path is not necessarily an easy one. For some, it was the desire to help and serve the community. For others, that reason is a family or ethnic background and pressures. The motivation for others may have been to improve their financial situation. Regardless of what may have instigated an individual's desire to go to law school, my goal is find ways to support the ABA in retaining those individuals in the legal profession after they complete their education.

My third overarching goal is to identify ways that the ABA Board of Governors as well as the Law Student Division Council can better serve students. There are many influences that pull students time and efforts in different direction. I want to work with the Board of Governors to identify ways to streamline those pressures and influences for both the most recent of graduates as well as the most seasoned of legal professionals.

By taking a multidirectional approach to this position, I hope to be able to serve the Law Student Division and the greater ABA membership by identifying mutually beneficial initiatives that support the physical, mental, and emotional health of the entire legal community. I appreciate your time and hope to be given this opportunity to serve.

Sincerely,

Travis Swallow
